

CON-FMC™

CON-FMC is a USB 3.0 FMC (FPGA Mezzanine Card) board which is compliant with the VITA 57.1-2010 standard. The CON-FMC provides USB 3.0 channel and can be connected to Windows/Linux/Android.

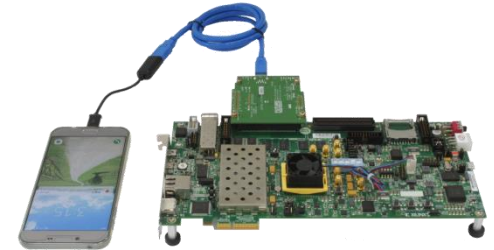

The CON-FMC has a LPC (Low Pin Count) compatible connector and USB 3.0 Type-B connector.

Connect Windows/Linux/Android to your FPGA board through USB 3.0

Windows/Linux

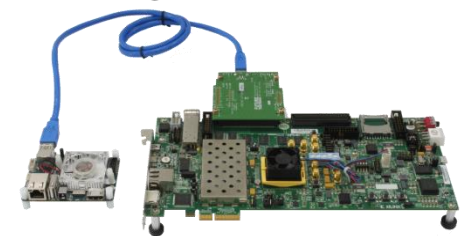

Android smart phone

Raspberry Pi

Odroid series
